

# rosalee Stipple Finish

rosalee stipple finish is fast drying texture paint which on drying gives a hard and durable paint film.

- ❖ Fast Drying - Touch Dry in 20-25 Minutes and Tack Free- One Hour
- ❖ Consistent Stipple/ Texture Pattern
- ❖ Good Surface hardness.

**Surface Preparation:** Surface should be thoroughly clean and free from oil and dust. A coat of primer may be applied for better results.

**Application- Stipple finish to be applied in two coats wet on wet-**

It is recommended to avoid thinning of Paint unless ambient temperature is high.

1<sup>st</sup> Coat mist spray of low thickness followed by 2<sup>nd</sup> coat of higher thickness to get proper stipple/texture pattern.

Keep interval of 3-4 minutes between the two coats.

Application air pressure to be maintained on lower side of about 40 PSI

Adjust the distance between Spray Gun and the object suitably to get the desired size of Texture.

**Uses:** Steel Furniture, Metal components, Control Panels, Electrical Motors and Wooden Substrate.
